

## Synthetic Turf Fields for International Rugby

Revolutionary synthetic field surfaces. Available only from AstroTurf, L.L.C. and ASI, the world leaders in quality sports surfacing. For over forty years, AstroTurf® has led the way with consistency, dependability and innovation.

AstroTurf's renewed focus is not on protecting innovation, but rather innovating protection. We are The New Generation of Sports Surfacing. Around the globe, someone, somewhere is giving their all on an AstroTurf® surface right now.

Featuring the best combination of:

- EcoCool Rubber Infill
- Lifetime Shock Absorption
- Playability in all Weather
- Astroreflect Heat Reduction
- Horseshoe Yarn Technology
- Polyurethane Backing

### ASTROTURF® GT+

Polyethylene fibre turf system that gets its natural appearance from individual monofilament blades.

Astroturf has the latest technology with new and exclusive "horseshoe" yarn, which just keeps standing up.

This system can be installed with Eco-cool rubber and either 15mm or 22mm shock-pads from Stockmeier Germany.

### ASTROPLAY® Z65X

100% monofilament polyethylene system.

X-Treme duo monofilament is the market leader meeting FIFA 2 star and IRB Rule 22 approval.

Astroplay Z65X has either 11mm or 22mm shock pads from Stockmeier Germany.
