## Golf Mats

### Classic Mat

Classic mat is the world largest selling golf tee mat for golf ranges. Since the 1970's AstroTurf has provided a mat that really works.

### Mega Mat

Megamat is the ultimate all nylon, tee mat with nylon root zone. Chosen from USA to Japan.

### Ultra Mat

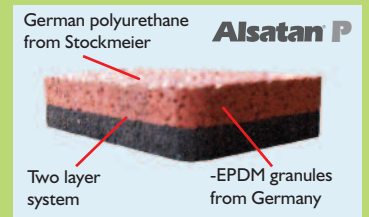

Ultra Mat was developed especially for chipping with irons from fairways and rough. It is made of PE monofilament and nylon root-zone combination.

All mats available in 1.5 metre square, 16kg per mat (approx.) octagon or square format.

# Alsatan<sup>®</sup> P Golf Pathways

Alsatan P is an 8mm black rubber with 8mm German EPDM system top layer for golf pathways and steps. It is regularly used by top European Tour golf events including the UBS Hong Kong Open as well as the UK, France and Germany. Prestigious clubs, such as Deepwater Bay and Shek-o Country club have chosen Alsatan P, over other brands, because Stockmeier's German made quality make it extremely durable. Alsatan P is also available in 10mm black SBR, to suit any course budget.

# Eagle<sup>®</sup> Turf Golf Grass

[www.eagleturf.us](http://www.eagleturf.us)

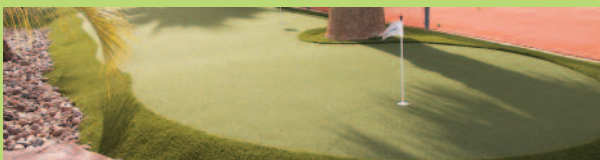

**Eagleturf Golf-Green 15+** is a latest sand dressed golf green to hit the market. Eagleturf gives a natural green putting speed without the costly up keep.

**Tee Line** is a 32mm tufted 3000 grams m2 nylon system where golfers can use their own golf tees. Tee-Line comes in 2 and 4 metre rolls widths and can be used on golf courses and practice tees.

**Eagleturf FH2 Green Premium 17** is our top selling golf green. It is extremely heavy weight at 2850 grams per m2, and gives natural ball rebound and roll. Only nylon green will stand the test of time, so when you want the best, chose Eagleturf FH2.

**Eagleturf Fringe and Fairway.** Eagleturf has product from 40mm to surround any golf green edge in premium monofilament. We also recommend our 60mm **Eagleturf Rough** for realistic practice and play. **Eagleturf Fairway 19** can be used on practice holes and driving ranges with all irons and woods.
