

This is really **NOT** Natural Grass

Does your Lawn **LOOK** *this good* **12 MONTHS A YEAR?**

Water & Mowing Free

Eagle  **Lawn** [®]

EagleLawn®

EagleLawn® is the new 3rd generation of artificial monofilament turf that looks and feels like natural grass, all 12 months of the year.

The new generation of lawns from EagleLawn®, incorporates the same technology that major football stadiums are using with "ECO Cool rubber" infills.

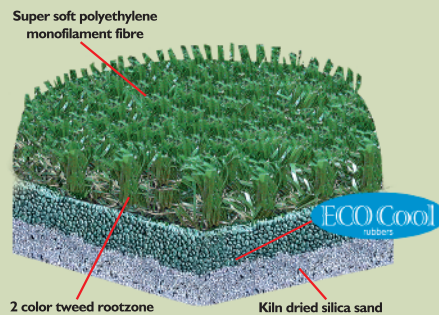

- no watering
- no mud
- no mowing or fertilising
- no weeds or harmful pesticides
- no fading or brown patches

A wide range of uses for EagleLawn®

- LAWNS AND BACKYARDS
- BUILDING ROOF-TOPS
- SWIMMING POOL AREAS
- PATIOS AND PORCHES
- GOLF COURSES
- AIRPORTS
- PARKS AND RECREATION
- CHILDREN'S PLAY AREAS
- SPORTSGROUNDS
- ROAD SIDES AND TRAFFIC ISLANDS
- APARTMENT COMPLEXES
- NON SLIP APPLICATIONS

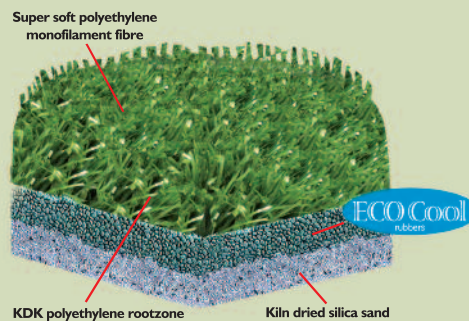

EagleLawn® Tweed MF with 2 color rootzone

EagleLawn® Tweed MF –with 2 color root zone – EagleLawn Tweed is designed to look exactly like the natural grass on “warmer” countries. It consists of a top grade monofilament polyethylene yarn, supported by a 2 color tweed rootzone layer. It can be installed with or without infill.

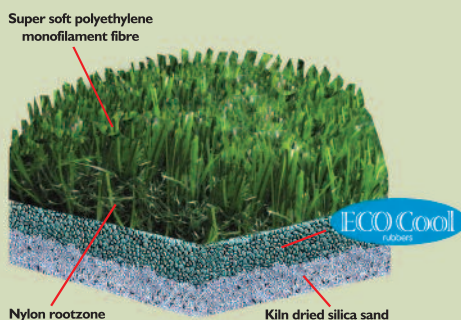

EagleLawn® Dundee MF with KDK rootzone

EagleLawn® Dundee MF – with 1 color rtz – EagleLawn® Dundee is designed to look very green like countries with higher rainfall. It consists of a top grade monofilament polyethylene yarn, supported by a green KDK rootzone layer. It can be installed with or without infill.

EagleLawn® Falkirk MF Premium with Nylon rootzone

EagleLawn® Falkirk MF Premium – with nylon green rtz – EagleLawn® Falkirk is a premium product for use in traffic areas, with Thiolon MS Pro monofilament supported by a green nylon root zone.
